

Key Features of the New Minn Kota® Fortrex™

- Mono Arm Design (eliminates motor play, reduces steering torque, twisting and racking, provides tighter tolerances, stays quiet for life-of-trolling motor)
 - Single main hinge point
 - Extruded Marine-grade aluminum structural beam design
 - Composite bushings on all metal-to-metal interfaces
 - Counter Tension Stabilizer Technology (CTS) featuring integrated spring arm
- Lift-Assist with gas-charged spring
 - Reduces effort to stow and deploy motor by 50 percent
- New motor head made of a hybrid composite material
 - 500 percent increased impact resistance
 - Directional arrow is raised and illuminated for easy direction indication
- Bowguard 360™
 - Breaks away at impact and resets automatically
 - Updated design allows for motor removal
- Redesigned foot pedal
 - Ergonomically designed to fight foot fatigue
 - Provides ultra-responsive steering
 - Non-slip speed dial for precision control
- Redesigned pull handle
 - Constructed of non-marring soft rubber
 - New abrasion resistant rope
- Optional Universal Sonar 2
 - Integrates fishfinder transducer into lower unit and wires into the shaft
 - Dual beam capability
- Indestructible Composite Shaft – guaranteed for life
- Cable Steering for responsive boat control
- Digital Maximizer™ – delivers up five times longer run time on a single battery charge
- Weedless Wedge™ 2 Prop
- 3-Year Warranty
- Available with either 80 or 101 pounds of thrust and shaft lengths of 45, 52 or 62 inches
- Suggested Retail Prices range from \$1,079.99 to \$1,329.99

Specifications for Fortrex

All models available with Minn Kota's Universal2 Sonar

Thrust (pounds)	Shaft Length (inches)	Volts
80	45	24
80	52	24
80	62	24
101	45	36
101	52	36
101	62	36
